

Family & Maternity

2025

Program & information

Photo sessions

What better way to celebrate the love you share as a family than with some updated family portraits!

My style of family portraits are dynamic, colorful and spontaneous! Immortalize your special occasions, birthdays, new family members and anniversaries with a professional photography session.

Family portraits can be taken in my studio located in ville Saint-Laurent or at the location of your choice.

It would be my pleasure to capture your family's candid moments.

Tips & Tricks

Maternity

Select an appropriate wardrobe. Try to match the location and style of the shoot. If you plan to do a in Studio photo session, try to wear comfortable cloths as to avoid marks on your skin.

When is the best moment for a maternity photoshoot?

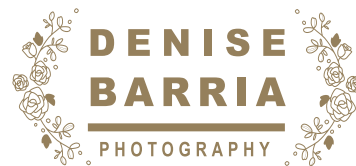

Around the 34th week of your pregnancy is an ideal moment to do a photoshoot!

Make-up and Fashion accessories.

Most moms-to-be go for a natural make-up, but it is totally up to you! Try to match the style of you photo shoot. Will it be casual or formal? Make-up and outfit should match your choice. I usually tell my clients to bring more then one outfit and accessoires as to have different looks.

Outdoors Location

Just like with engagement and other portrait sessions, the last hour or so before sunset (also known as golden hour) is usually the most popular time to schedule sessions.

For more information, feel free to contact me.
It would be my pleasure to help you plan your photo session.
