PROGRAM & INFORMATION

Meetings

I like to begin the process with an initial meeting. This will allow us to discuss all the details and specific desires you may have for your wedding day photographs. This includes locations, scheduling, details of couples portraits, accessories you may wish to bring, the nature of the reception, etc.

At the end of the meeting, I will explain the terms/details of the contract, the scheduling of the day's events and address all of your questions.

If your wedding takes place in Montreal and the venue is not known to me, I will take the time to visit the venue to explore and plan poses and locations suited to your desires.

Your Wedding Day

On your wedding day, I will arrive at our predetermined place and time. I will provide guidance and tips throughout the day and ensure the smooth and successful completion of the your scheduled package.

Throughout the entire day, I will guide you so that you can enjoy your wedding day to the fullest. My goal is to capture as many spontaneous and authentic moments so that in the years to come, you'll be able to relive your wedding day.

PROGRAM & INFORMATION

Your Photographs

After your wedding day it will take approximately 8 weeks to retouch your photographs and have them ready for you. I will however send you a small «Teaser» of about 10 pictures, within a few days after your wedding, to help you through the wait.

Once your photographs are ready, I will send you your complete web gallery through Pic-time. Within this platform you will be able to download in high resolution all the photos of your wedding day. It also allows you to share your gallery with your family and friends.

Packages et Quotes

Here are some you examples of the most popular packages. Please bear in mind that each wedding is an unique event and as such, it would be my pleasure to customize a package best suited to your needs.

The packages illustrated here outline key elements which are included in each respective package. In all cases we will be working with professional equipment and lighting to ensure that we capture the sentiment and beauty of your special day.

We can provide specialized photographs and services to suit your every need, so feel free to bring your questions and imagination to our first meeting.

INTIMATE WEDDINGS & ELOPMENTS

Micro Wedding

A micro wedding is an intimate affair, typically with no more than 20 guests. They still feature time-honored traditions that make a wedding but on a much smaller scale. Brides and grooms only invite a select number of people who are the dearest to their hearts.

A smaller gathering allows you to fully enjoy intimate talks and moments with your guests. Also, with fewer guests comes less work, less coordination the day of, less budget required, and more options in terms of spaces to celebrate.

This much more relaxed context comes with a lot of perks. It can allow you to personalized your day with little details for each and everyone of your guests. It can also allow you to choose a venue with a definitive flavour that reflects you in every way.

For more information, feel free to contact me.
